**Total Audio Video Systems Achieves  
InfoComm International Gold Level Designation**

**Fort Lauderdale – December 10, 2007** – Total Audio Video Systems, Inc. has qualified as an InfoComm International Gold Certified AudioVisual Solutions Provider (CAVSP). Within the past two weeks, 2 TAVS technicians have earned the CTS Certification: Rob Brau and Eric Boisse, bringing the total percentage of certified technical staff to the Gold Level of 75%. Rob, a Lead Installer, joined the company in May and is working toward becoming a Programmer and System Design Engineer. Eric has just completed his first 90 days. He has an extensive background in Pro Audio and is working toward becoming a Commercial Systems Design Engineer.

TAVS is a Custom Audio Video Integrator offering System Design, Consultation, Engineering, Programming, Installation & Service throughout the South and Central Florida Markets, with offices in Fort Lauderdale and Ocala. Their projects include Board Rooms, Healthcare and Educational Facilities, Video Conferencing Systems, Restaurants and Professional Sound & Video Presentation Systems for Houses of Worship. In addition, TAVS incorporates energy-conscious Green Technologies such as Lighting, Climate and Shade Control, into their designs.

TAVS has also committed to InfoComm's Standards of Excellence and has received the AVolution designation for both of its locations.
