## Total Audio Video Systems Employee Awarded Certification by the Custom Electronic Design & Installation Association (CEDIA)

### CEDIA-Certification Offers Consumers Peace-of-Mind When Choosing a Home Electronics Contractor

Sunrise, FL, December 11, 2007 – TAVS, Inc is proud to announce that Robert Brau has been certified by CEDIA University, the Custom Electronic Design & Installation Association's prestigious professional training program. CEDIA Professional Certification ensures that CEDIA Members are the "best in the business" of residential electronic systems contracting. Rob, a Lead Installer, joined the company in May and is working toward becoming a Programmer and System Design Engineer.

Electronic systems include media rooms and home theaters, automated lighting, whole-house audio, and other integrated electronics. TAVS is a Custom Audio Video Integrator offering System Design, Consultation, Engineering, Programming, Installation & Service throughout the South and Central Florida Markets, with offices in Fort Lauderdale and Ocala. Their residential projects include Distributed Entertainment Systems (Audio & video, indoors and out), Media Centers, Video Conferencing, Telephone & Data Systems, all controlled via customized Touchscreens, Keypads and Remotes. In addition, TAVS incorporates energy-conscious Green Technologies such as Lighting, Climate and Shade Control, into their designs.

"CEDIA Certification is equivalent to the Good Housekeeping seal of approval within the electronic systems industry," said Don Gilpin, executive director of CEDIA. "Homeowners can rest easy when they hire a CEDIA Certified contractor

because all of our members are truly the most experienced professionals with the most advanced technical expertise.”

CEDIA University is an institution of learning that provides facilities for teaching and education and furthers the knowledge and professional skills of members and students in the residential electronic systems industry. Its mission focuses on helping business owners and their employees prepare for certification and career advancement.

CEDIA is an international trade association of companies that specialize in designing and installing electronic systems for the home. The association was founded in September, 1989 and has more than 3,000 member companies worldwide. CEDIA Members are established and insured businesses with bona fide qualifications and experience in this specialized field. For more information on CEDIA, visit the association's website at [www.cedia.org](http://www.cedia.org).
